
NOTE: This drawing is for GENERAL truck configuration evaluation ONLY. Only major configuration items are shown. The respective dimensions associated with these items are estimates and may vary with final production, including overall height and length. All other items such as lighting, plumbing and other generally assembled details are shown for REFERENCE ONLY and may not be a direct reflection of the specifications. In ALL situations where the drawing may contradict the specifications, THE SPECIFICATIONS SHALL PREVAIL. Crimson Fire will manufacture the proposed apparatus to the latest NFPA recommendations unless otherwise specified. Crimson Fire will engineer and manufacture the product to the intent of the specifications while reserving the right to incorporate design improvements and changes without notice.
